EXECUTIVE SUMMARY

- I have over **23 years of creative experience** in delivering and designing user-friendly applications across devices and industry domains. I have supported clients in the Middle East, North America, Europe and Asia with my expertise.
- Successfully delivered **applications and websites** for various Sports IT systems, Banking & Insurance domain, Human Resources, Entertainment, Corporate IT sector and Travel & Tourism industries.
- Designed the front-end UI and coded for various **FIFA World Cup Qatar 2022™** websites, like the Stadium Information Portal, Worker's Welfare System, Survey Monitoring System, Weather Information System and Tournament & Time Demand Management. The mobile apps include Connected Stadium, SeeMyQatar and 360-degree Al Rayyan stadium for the Supreme Committee for Delivery & Legacy in Qatar.
- My involvement in the design of the physical **Stad-Link card** was used to access stadiums, metro, bus & retail POS in Qatar for the Amir Cup 2020 Finals.
- My core competencies include **AI Adoption**, Rapid Application prototyping, UX/UI designing, Front-end coding, Graphics & Visual designing, Infographics and Branding of products.
- **Led cross-functional teams** to design seamless customer experiences that support an organization's strategy across multiple digital platforms.
- Experienced in designing visual frameworks, **design systems** for websites and responsive user interfaces across various devices and mediums.
- Meeting with clients, **presenting and communicating** with account & project managers, developers, designers and other departmental heads are among my responsibilities to acquire information needed to complete projects.
- Staying up-to-date on **design trends** and tools to create cutting-edge visual designs and apply them in daily design workflow is my hobby.

EXPERIENCE

Consultant - UX

JAN 2021 - PRESENT

INTALEQ TECHNOLOGY CONSULTING & SERVICES, QATAR

- Creative consultancy to Aspire Zone Foundation and its SBU's in designing and branding of websites and their internal applications to enhance user experience and strengthen brand identity.
- Designed intuitive, user-centered experiences for web and mobile applications, improving usability and customer satisfaction.
- Created wireframes, interactive prototypes and high-fidelity mockups using tools like Figma, Adobe XD.
- Collaborated closely with product managers, developers, and stakeholders to align design solutions with business goals and technical requirements.
- Optimized user flows and information architecture to enhance navigation and task completion rates of apps.
- Designed and delivered mobile apps, dashboards, websites, visual graphics that was utilized for FIFA World Cup Qatar 2022™ under Supreme Committee for Delivery & Legacy.
- Directed the creation of compelling visual concepts and engaging designs for sales presentations, events and marketing collateral, aligning with business objectives.

Senior UX Designer

OCT 2013 - DEC 2020

ASPIRE ZONE FOUNDATION, QATAR

- Translate concepts into user flows, wireframes, mockups and prototypes that lead to intuitive user experiences.
- Involved in designing the Stad-Link card that allowed access to multiple services in Qatar like stadiums, metro travel, Mowasalat bus travel and payment on PoS machines.
- Created Mobile UI for Al Rayyan 360 app which was launched during the AmirCup 2020 finals.
- Converting designs into web-friendly codes and working closely with developers for final delivery.
- Worked on cross-platform applications to develop user experiences covering mobile phones, tablets and computers.
- Designed and coded digital platforms for Aspire Zone Foundation and affiliated entities, including Aspire Academy, Aspitar, Aspire Logistics and internal corporate intranet solutions.
